ANY TIME, ANY WHERE, ANY PLACE SCANNING FROM BROTHER

With a portable Brother DS-600 or DS-700D scanner at your side, capturing and archiving all kinds of documents is simple when you're working on the move.

Small enough to carry and fully powered by the USB port, these compact models provide all the features you'd expect in a desktop scanner. Like 'One Touch' scanning (with 2 sided scanning functionality included in the DS-700D) and the ability to scan business cards directly to your list of contacts.

Getting paper documents into a high-res digital format is where it all starts. Connect with the suite of software included and receipts, identification, orders and most paperwork can all be captured and shared across your organisation's network from virtually any location, for efficient and secure information handling.

PERFECT FOR

☑ Scanning customer orders, identification documents and utility bills on the go

☑ Using where space is limited, for example in a vehicle

☑ Archiving documents fast

☑ Creating searchable PDF documents

☑ Scanning business cards directly into your contacts

☑ Windows and Mac Users
