POCKETJET HELPING YOU EVERY DAY, ON THE MOVE…

Mobile printers are a necessity for many workers out on the road including emergency service officials, sales and delivery staff, helping them to increase productivity, customer confidence and professionalism.

PocketJet 600 is one of the compact mobile printing solutions on the market – it's also affordable, lightweight, yet durable. And it's easy to print from as PocketJet can be connected to your smartphone, PDA, tablet PC or laptop using its Bluetooth, USB or IrDA connections. Now your workforce can print high quality A4 documents when and where they need them on the move.

FIELD SERVICE

Engineers out on the road can use PocketJet to print service reports for customers they are visiting, increasing customer confidence and minimising future queries.

LOGISTICS/DELIVERIES

Busy delivery drivers can print out updated delivery notes and order sheets with PocketJet, helping to keep them on the move and in the right place at the right time.

FIELD SALES

PocketJet can print out quotations, contracts, financial plans and invoices, increasing the opportunity for your sales people to close the deal while a customer's interest is still high.

PUBLIC SAFETY/EMERGENCY SERVICES

PocketJet can increase the accuracy of recording important information out in the field, avoiding unnecessary, time-consuming paperwork back in the office.

COMPACT A4 MOBILE PRINTING SOLUTION

TOUGH ENOUGH TO TAKE OUT ON THE ROAD

WHY POCKETJET?

PocketJet offers a rugged, durable, yet compact mobile printing – fitting neatly in a computer bag or easily mounted in a vehicle, it provides a tailored 'in the field' solution. Its direct thermal printing technology ensures reliable quality, whatever the conditions or environment. PocketJet uses no ink or toner so there's no mess, risk of spillage or 'running out of ink' whilst on the road. And it has flexible/multiple power options, from rechargeable batteries to AC or vehicle power kits.

LIGHTWEIGHT & PORTABLE

A4 high quality 300dpi print resolution

FLEXIBLE
Power options include rechargeable batteries, AC adapter or vehicle power kits

ACCESSIBLE
Bluetooth, USB and IRDA interfaces for seamless connectivity

DURABLE
Designed to withstand even the harshest conditions

SOFTWARE SUPPORT AND INTEGRATION

Brother can provide the necessary tools required for software developers to integrate the print function into their mobile application. Printer drivers are available for Windows OS and Software Development Kits can be provided to support Windows Mobile and Android applications.

For further information go to **http://www.brother.com/product/dev**

IN VEHICLE PRINTING

Thermal printing is ideal for in-vehicle use because it is less susceptible to fluctuating seasonal temperatures and humidity extremes than other mobile technologies.

FURTHER FEATURES INCLUDE:

- Bluetooth Imaging Protocol support for downloading and printing jpeg files
- The ability to store document overlays in the printer to minimise data transfers
- Fully featured design software for creating and downloading document overlays
- Brother ESC/P printer emulation offer compatibility with a variety of embedded systems
