# Epson Expression 11000XL Pro

---

DATASHEET

---

The Epson Expression 11000XL Pro is a high-resolution A3 scanner designed to meet the most demanding graphic arts applications. With a transparency unit included, this graphic scanner is the complete photographic package. Featuring Epson Scan advanced imaging features and exceptional SilverFast Ai8® image-processing functions, it offers excellent image reproduction.

Thanks to the Expression 11000XL Pro's top-of-the-range scanning technology, users can achieve extremely high-quality image reproduction up to A3 format. Easy-to-use, Epson Scan operates in automatic or professional modes, allowing users to optimize their scanning results.

The scanner's optical density of 3.8 DMax and 48-bit colour depth ensure sharp and accurate scanning for full reproduction of the widest range of colours, even in shadow areas. In addition, the high 2400 x 4800dpi resolution and ultra-precise Micro Step Drive technology, enable users to capture even the tiniest details with exceptional clarity.

A comprehensive package of bundled software and imaging technology enables the Expression 11000XL Pro to perform a wide range of functions easily and efficiently. Epson Scan comes with useful features for removing dust noise and grain reduction to smooth the appearance of images. For hobbyists and amateur photographers, Adobe PhotoShop Elements®<sup>1</sup> has sophisticated, easy-to-use editing tools to manipulate images. SilverFast Ai8® is included for advanced users, with an intuitive user-friendly interface and processing functions to help get even closer to perfect image reproduction.

The included transparency unit enables users to scan from transparency media, such as positive or negative film and slides, with professional results.
