# DCP-375CW Wireless Colour Inkjet Multifunction Printer with Media Card Centre

With wired or wireless network capabilities and high print speeds: the DCP-375CW colour inkjet multifunction combines print, copy and scan functions into one compact machine, allowing you to Do More.

The DCP-375CW offers high print speeds of 33 ppm mono and 27 ppm colour, whilst a print resolution of up to 6,000 dpi and an ink droplet size of 1.5pl ensure you get excellent print quality every time.

Save time: The DCP-375CW allows you to make copies from, or scan documents directly to your media card in PDF format, without the need to turn on your PC.

Scan and copy documents and even bound pages with the functional flatbed scanner. Scan to email or OCR at the touch of a button.

Produce high quality, professional looking photos: Adjust skin tones,

remove blemishes and eliminate red eye with the easy to use FaceFilter software which comes free with your machine.

The DCP-375CW complies with the ENERGY STAR and the German Blue Angel environmental standards, ensuring energy efficiency, low noise levels and a recycle-friendly design.

All Brother inkjet multifunctional machines implement an individual ink cartridge system. This means you only have to replace the colour that runs out instead of having to discard an entire tri-colour cartridge - eliminating waste, protecting the environment and saving you money.

To achieve the highest print quality we recommend using original Brother LC980 fade resistant ink cartridges together with Brother BP71 Premium Plus photo paper.
