

A BLACK AND WHITE ALL-IN-ONE THAT CAN...

Produce clear, high quality documents at print and copy speeds of up to 26 pages per minute, it's not only the print quality of the Brother 7000 series that makes it an outstanding range of fast, black and white laser all-in-ones, because they can also...

...PRINT DOUBLE-SIDED

A feature usually associated with more expensive printers that, along with the impressive booklet printing feature, not only gives your documents a very professional appearance, but also saves you money and paper.

...COPY AT HIGH SPEED AND SUPERB QUALITY

The 7000 series can quickly copy anything from single sheets to multiple documents, plus you can enlarge small text from books, documents or magazines for easier reading.

...SCAN IN COLOUR

Featuring an impressive high resolution colour scanner, capable of capturing even the finest detail, the 7000 series lets you scan to file, e-mail, image, or OCR. By scanning directly to a network drive, you can easily share images and documents.

...AND FAX

With built-in speed dials and the ability to send one fax to over 200 locations at once, the 7000 series makes faxing quick and simple – and its large memory means that even if the paper runs out, the fax won't be missed.

A high speed black and white laser printer, a versatile copier, a colour scanner and an efficient fax – get them all-in-one with the Brother 7000 series.

WITH A CHOICE OF COMPACT, LOW COST, VERSATILE MONO ALL-IN-ONES

Fast, economical, high quality black and white laser printing make the 7000 series a great choice, but it's made even better by the fact that they're equally impressive at copying and faxing.

And, when it comes to scanning, the 7000 series is a cut above the rest – because it produces high quality scans in colour that, thanks to its connectivity, can be easily shared on a network.

So whatever you want to do: print out a document, fax your accounts, copy spreadsheets or scan colour-coded plans – choose a Brother 7000 series all-in-one. Packed with features, loaded with benefits – but taking up very little precious space: whichever one you choose, you've got it all in black and white.

**PERFECT
FOR**

- ✓ Growing businesses – at home, start-up or small office
- ✓ Anywhere that space is at a premium
- ✓ Sharing with up to 3 users – with its easy networking facility
- ✓ Double-sided printing to save paper and creating a professional impression
- ✓ Saving money with low operating costs
- ✓ Precision colour network scanning
