

Memories are valuable things to be cherished. So wouldn't it be great to print lab quality photos from your camera as soon as you've taken them? With the Brother DCP-J125 you can. As well as being the perfect printer for freeing your photos from your hard drive or camera, it's packed with other great features too.

## Save space and money

The DCP-J125 prints, copies and scans all in one, which will not only help save you valuable space in the office, it'll also save you money, as you only have to handle the cost of one machine, not three. Being compact and economical to run, it's just one of a range of home printers designed with the home business user in mind.

## Print photos to professional standards

It's all too easy to end up with loads of precious photos and favourite moments just sitting in your camera. So our DCP-J125 all-in-one printer makes it easy to print those unique memories out so you can enjoy them again and again. It means you can produce lovely borderless prints (like you'd get on the High Street) at home. With Brother inks and paper, your photos are designed to last for up to 100 years, with no fading due to exposure to light.

You can scan in old pictures and give them a new lease of life too, with the free Reallusion FaceFilter® software making it easy to get rid of red eye, flash reflections... or even the odd wrinkle.

You can edit your photos before you print them using the built-in 4.8cm wide colour LCD screen. With print speeds as fast as 30 seconds per photo, you'll have an album full of lab-quality photographs in no time!

## Technical Specifications DCP-J125

### FOR ADDED CONVENIENCE

you can print directly from, or scan to media card. You can also scan to email, OCR, image, file or media card

DCP-J125

Download your App to print and scan with your Android/iPhone\*\*

## Green and clean

Low power consumption, minimal noise, non-hazardous materials and recycling friendly design meet renowned Energy Star and Blue Angel environmental standards. Brother has also been awarded 100 out of 100 by the Ethical Company Organisation for the fourth year in a row – the only printer manufacturer to achieve this.

And our commitment to the environment now includes sponsoring 4 square kilometres of Amazon rainforest in partnership with Cool Earth, which protects endangered areas to help combat global warming.

## You're covered

When you buy a new piece of equipment, the last thing you expect is for it to let you down. In fact, when something does go wrong with one of our products, we're as surprised as you are, as every Brother machine has been through rigorous testing. So, in the unlikely event that you do have a problem with your machine, you'll be pleased to hear that every Brother printer comes with a full 12 month warranty plus 24 hour online support. Which means if your machine does let you down, our dedicated aftercare team won't, even after your warranty period has expired.

## Colourful savings

With Brother's Innobella original ink cartridges and paper you can be sure of top quality prints time after time, with true, vivid colours from 100 years lightfastness fade-resistant inks and specially coated paper. You'll even save money too, as the design uses individual ink cartridges so you only have to replace the one that's run out.

### Combined Cartridges

When one colour runs out you have to throw all the other colours away - wasting ink and money.

### Brother's individual ink cartridges

Using Brother's individual ink cartridges allows you to replace just the empty cartridge - saving you ink and money plus it's environmentally friendly too.
