Always at your side

The colour printer that's a shade more professional.

The new HL-2700CN, a laser printer that is as technically outstanding as it is reassuringly simple to use.

HL-2700CN
For high quality, professional colour documents

Optional paper tray
Boost paper capacity to up to 780 sheets

Optional duplex unit
Produce double-sided prints with the optional DX-2700 duplex unit.

HL-2700CN

- Up to 31ppm in mono, 8ppm in colour.
- Professional 2400 x 600 dpi resolution.
- Network Ready.
- Windows® and Mac® compatible.
- Options include Duplex Unit and 530 sheet lower paper tray.

Producing high quality, professional looking colour documents previously required a technically complicated and excessively priced printer - until now. Because now Brother have introduced a model that will satisfy your every requirement.

Ideal for small to medium sized workgroups and businesses that want to create a real impression. With impressive print speeds of up to 31ppm mono and 8ppm colour, the HL-2700CN produces quality mono prints and outstanding true colour documents quickly and consistently.

Indeed, the network ready HL-2700CN with its ample 64MB memory (expandable to a generous 576MB) can tackle any number of different tasks, from simple letters and memos to complicated graphic documents or memory hungry booklets, all with the same speed and efficiency.

A handy re-print function allows the last document handled to be reprinted without needing to return to your PC. Furthermore, with its Windows® and Mac® compatibility, the HL-2700CN has all the right connections for you and your business. Perfection guaranteed.

Brother's Colour Advanced Photoscale Technology (CAPT) provides faithful reproduction of your Windows® and Apple Macintosh® documents. Whether you're producing charts, presentations or illustrations, CAPT's precision for fine graduation and neutral tints will closely resemble photographic quality.

So, if you need a printer that is every bit as sophisticated as the material you want it to print, then you need the HL-2700CN from Brother – a printer that's technically advanced yet reassuringly simple to use.

HL-2700CN

High Volume colour printer

Expandable features that make a difference

The HL-2700CN offers a number of upgrade features that make the most of your investment. An extra lower paper tray boosts paper capacity to up to 780 sheets, therefore making it far more convenient for you.

A duplex unit enhances the range of documents you can create. What's more, printing on both sides of a sheet of paper considerably reduces paper use and wastage, not to mention running costs.

Key Features

- Impressive print speed of up to 31ppm monochrome and 8ppm colour
- Professional, high resolution Photoscale Technology print quality, up to 2400 x 600dpi
- Wide compatibility Windows® and Mac®

- Network ready (10/100Base TX Ethernet)
- PLC®6, PLC®5c, and BR-Script3 (PostScript®3 Language Emulation)
- 64MB standard memory expandable up to 576MB
- Flexible throughput, 250 sheet standard input tray expandable to 780 sheets

Committed to supporting your business

Designing and producing technology that improves your world isn't the only way Brother is helping to support your business. Our commitment to you extends well beyond the initial purchase, with an entire package of value added extras including:

- **Free warranty**
A free, full 12 month on-site warranty for extra peace of mind. Includes technical helpline, free on-site repairs and free call-outs

Secure Printing

A secure print option for confidential documents sent from Windows® applications. A secure PIN number must be used. Alternatively the secure print option can be accessed via a web browser

SAP Printing

Demonstrating Brother's continual commitment to this global printing solution

BRAdmin Professional Software and Web BRAdmin

Brother's powerful BRAdmin Professional and Web BRAdmin software can be used to manage Brother printers as well as view the status of other SNMP compliant devices

Embedded Web Server Support

In addition to these management applications, a built-in web server ensures that Windows®, Macintosh® and even Unix or Linux users with web browser capabilities can manage their printers
