MFC-235C

Compact Colour Inkjet
Multi-function Printer with Fax

- Up to 25ppm Mono and 20ppm Colour print speed
- Direct photo printing via camera using PictBridge
- Print at up to 6,000dpi resolution with a minimum droplet size of 1.5pl
- Colour faxing with 40 speed dials
- Four individual ink cartridges with fade resistant ink

MFC-235C

The perfect companion for all your colour printing, faxing, copying and scanning – in one compact machine!

If you work from home or have a small office where space is a premium but still need access to professional communication support, this multifunction printer is for you. The MFC-235C is a compact, stylish machine that will fulfil all your home/office needs in one.

The fax facility means you can send and receive your all-important business documents quickly and efficiently, so you never miss a business opportunity. With the MFC-235C there are no restrictions to what you can produce whilst working at home – the quality of its colour printing and flatbed copying rivals any standalone machine.

Packed with many features, like all Brother multifunction printers, it is simple to use – we've also put the print cartridges at the front so you can change them easily. With its separate ink cartridges you only have to replace the colour that runs out, saving you money in the future.

The MFC-235C also prints high quality borderless colour photographs straight from your digital camera. You and your family will love the natural, true-to-life colours – and photo printing on a Brother machine can cost much less than a specialist photo printer.

What's more, have fun with the FaceFilter software supplied FREE –

you can now put an end to red eye and enhance your skin tones on all your photos, or dare we suggest going a bit further and airbrushing out the odd wrinkle or two? We won't tell anyone!

To achieve high quality printing we recommend using Brother's Innobella™ ink and paper technology.
