

Brother P-touch labels have been subjected to a series of rigorous tests which prove that even when they're exposed to extreme conditions our labels have been designed to last.

Laminated

Laminated – our unique laminated tape technology ensures that a layer of super-clear polyethylene laminate protects your text.

Chemical Resistant

Chemical Resistant – after being submerged for 2 hours in a variety of chemical substances, no change in appearance or structure of P-touch labels occurred and the labels remained affixed.

Temperature Resistant

Temperature Resistant – P-touch labels can withstand extreme temperatures, from -80°C to 150°C.

Water Resistant

Water Resistant – after submersion in water over a long period, the tape structure and adhesive strength of P-touch labels remained unchanged.

Strong Adhesion

Strong Adhesion – specially developed adhesive means P-touch labels will stay firmly affixed to a wide range of surfaces.

Fade Resistant

Fade Resistant – after a year in a simulated sunny climate P-touch labels showed very little change visible to the naked eye.

Abrasion Resistant

Abrasion Resistant – In the P-touch abrasion test using a 1kg sanding device, lettering remained completely intact, only the protective layer was slightly scratched.

Easy Peel

Easy Peel – enables convenient removal of the tape backing before applying the label.

Technical Information

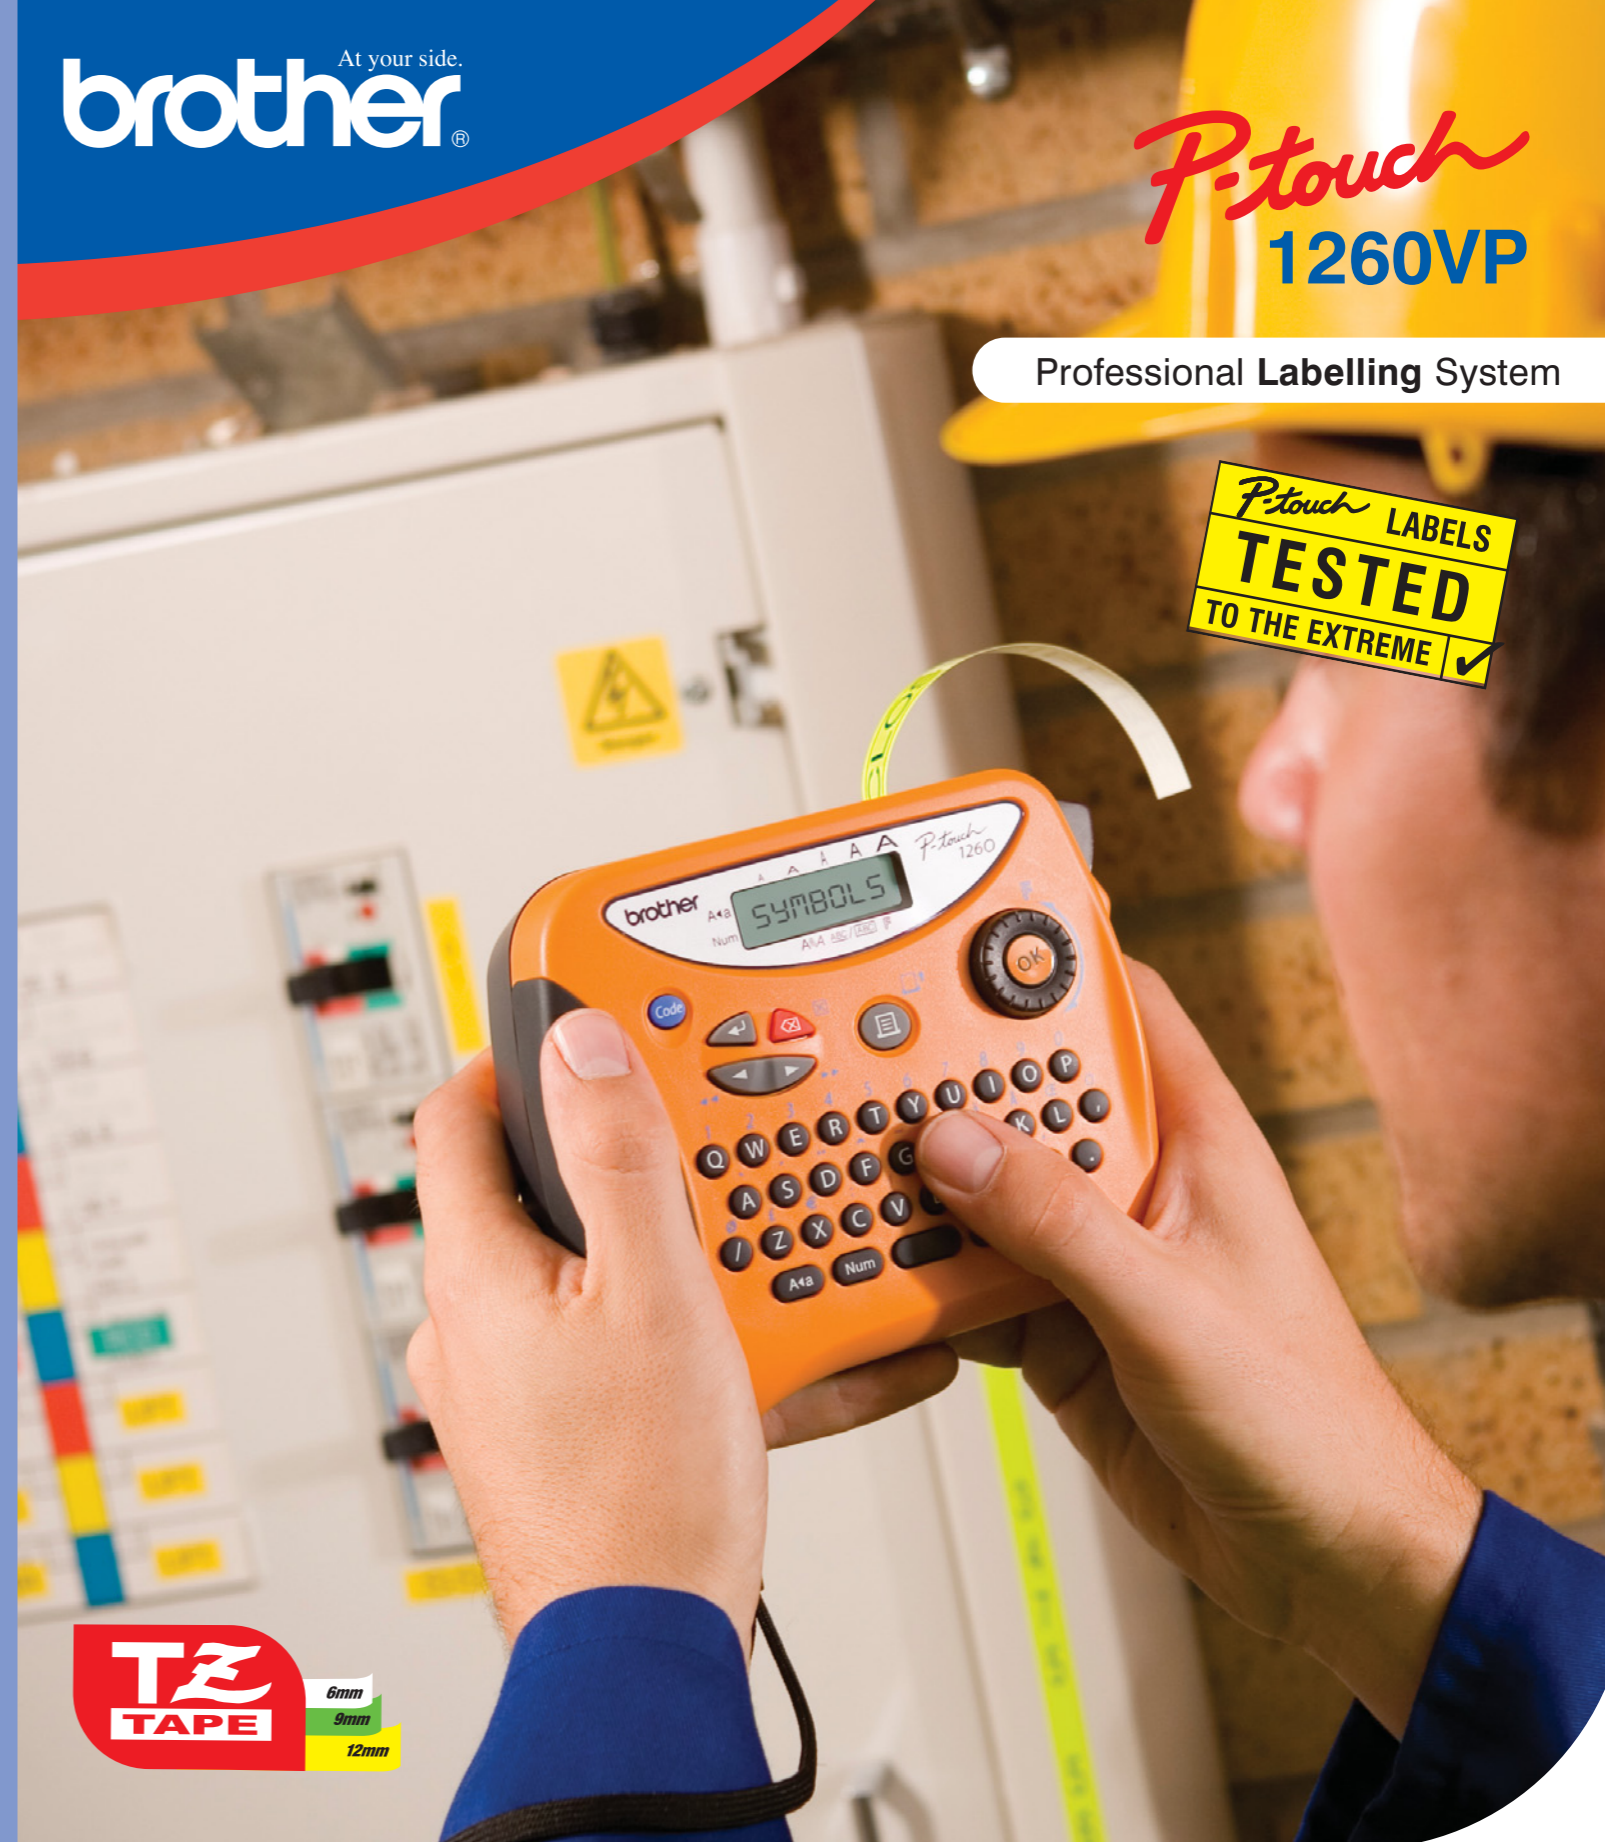

Hardware

Housing Dimensions (mm)	154(W) x 129(D) x 79(H)
Housing Design	Handheld (horizontal)
Housing Weight	400g
Housing Colour	Blue and Silver
Key Board	QWERTY
Number of Keys	39
Cutter	Manual/Blade type
Power	AAA sized Alkaline Batteries x 6pcs or AC Adaptor Model G (included)
LCD	8 chr. x 1 line
Tape Type	TZ Tape
Tape Size	6, 9, 12mm
Print Head	180 dpi
Print Speed	10mm/sec

Built-In Software

Built in Fonts	Helsinki
Number of CHR'S & Symbols	213
Max. Print Height	9mm
Max. Character Height	6.8mm
Multi-Line	2 lines
Memory	300 chrs (9 area)
Type Styles	Normal/Bold/Outline/Shadow/Italic/Italic Bold/ Italic Outline/Italic Shadow
Framing & Fill Pattern	Round/Banner/Wooden (Nameplate)/Vine
Copy Printing	1~9
Underline	Yes
Tape Margin Settings	None/Small/Half/Full
Mirror Printing	Yes
Vertical Printing	Yes
Numbering	1~9
Auto Power Off	Yes
Navigation – Dial (for Function)	Yes

Features

- 8 characters LCD display
- Double line printing
- Includes 213 characters & symbols
- 300 character memory
- Copy printing (1-9)
- Helsinki font, 5 sizes, and 9 type styles
- 4 frames and underline printing
- Horizontal, vertical, and mirror printing
- Power supplied by 6 x AAA batteries or AC adapter (adapter included)
- Includes TZ 12mm black on yellow Strong Adhesive tape (TZ-S631)
- Comes in a handy carry case

Easy to use

The navigation dial on the P-touch 1260VP provides access to all the software functions quickly and easily. Simply choose from 9 print styles in 5 sizes, and 4 frame styles. The semi-graphical display then lets you preview up to 8 characters on one line, enabling you to view and edit your label before printing.

Portable

The P-touch 1260VP is a lightweight, compact, handheld labelling machine. Ergonomically designed with an easy-grip rubber handle, and a handy strap attached to protect it from falls, it is supplied complete with a practical carry case with room for both tapes and adapter!

Durable labelling

Brother's unique and exceptionally durable TZ tapes are designed to be extra hard wearing. Tests have shown that our tapes can withstand heavy abrasion, electrical resistance, lengthy exposure to chemicals, sunlight, water and extreme temperatures, from -80 to 150°C!

The new P-Touch 1260VP from Brother !

Portable, easy to use and robust, this labeller is perfect for electricians who not only need labels that last, but also a tough machine that can take the knocks. This entry-level machine is specifically designed for electricians' immediate labelling needs, and is a companion that will stay at your side.

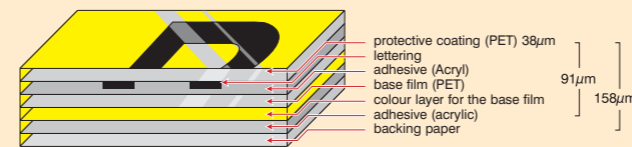

A clear and labelled work environment

The P-Touch 1260VP is a durable labelling machine designed to stand up to rigorous demands. With over 20 common electrician related symbols, this is an indispensable helping hand for creating a clear and safe working environment. Basic electrical labelling needs are no task for this machine. You can clearly identify fuses, switches, sockets, cables and other electrical installations with ease.

Why do Brother P-touch labels last longer ?

Consisting of six layers of material, the Brother laminated TZ tapes results in a thin, yet extremely strong label. Characters are formed with thermal transfer ink and sandwiched between two layers of PET (polyester film), which allows for the creation of virtually indestructible labels. No other labels offer such resistance and wear!

Brother Laminate Tape Construction

Also supplied with the P-Touch 1260VP is our popular black on yellow TZ 12mm Strong Adhesive tape.

The extraordinary adhesive properties of this tape make it ideal for labelling your most challenging surfaces, no matter how dirty, uneven or rough. No more worrying whether your tape will stick.

Wide Range of Tapes

TZ tapes are available in a large range of colours and widths. Standard tape length is 8m providing approximately 100 labels*! For full tape line-up see TZ tape catalogue.

Within the TZ tape range we also offer special tapes, including:

Strong Adhesive Tape - Gives improved adhesion for those even more demanding applications and environments.

Flexi ID Tape - Ideal for cylindrical surfaces and flagging cables.

Security Tape - Designed to leave a checkerboard pattern as an indicator that the tape has been removed.

Fabric Iron-On Tape - Produces washable cloth labels ideal for labelling uniforms, work wear, bedding and table cloths.

*based on 10 characters and standard label length of 8cm.
