HL-2460

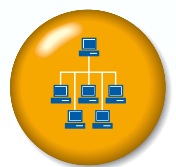

24 ppm

**High speed, high performance
workgroup printer**

The versatile printing solution for the large sized workgroup

**Large
Workgroup**

Design a system to suit your needs

The flexible range of options available for the HL-2460, means you can create a printer to cater specifically for your particular workgroup requirements. From adding extra paper capacity with additional lower trays, to installing a duplex printing unit, the choice of options available allow you to maximise the potential of this versatile machine.

HL-2460
Printer

LT-4000

Optional lower tray to increase the standard paper capacity by a further 500 sheets.

LT-4000

Provided with automatic lock function to upper units.

LT-4000

Up to 3 LT-4000 units can be added, to give a total additional capacity of 1500 sheets.

MX-4200

Additional optional mailbox with a further 5 bins, 6-10 holding a further 500 sheets, expandable up to 700 sheets removing 7th and 9th bins.

MX-4100

Optional 5 bin mailbox, holding up to 500 sheets in bins 1-5, to organise work and provide easy access to printed documents. The capacity is expandable up to 700 sheets removing 2nd and 4th bins.

DX-4000

Duplex unit allowing double sided printing on A4 size sheets, with easy installation just slide in the unit at the back of the printer.

SB-4000

Stabiliser unit allows the printer to be moved easily to the most appropriate location, then locked into position for stability and safety.

the
complete
solution

The Brother HL-2460 offers the complete solution to today's complex business printing requirements. Designed for reliability and speed, this high performance printer delivers outstanding print quality at an impressive 24 pages per minute. With a comprehensive range of options available to expand the capabilities of the HL-2460, this printer can grow with your business.

- Up to 24ppm laser print speed
- Outstanding Brother HQ1200 print quality
- Versatile compatibility & connectivity
- Wide range of options to meet your changing printing needs
- Advanced Network capabilities with powerful management software

ete ution

Superb Print Quality

The Brother HL-2460's HQ1200 print quality guarantees crisp black text and sharp graphics to give your documents a professional finish.

Select options to suit your needs

Whatever your workgroup needs from a printer, the HL-2460 can be tailored to meet those needs with its range of paper handling options and enhancements. From fast networking, expanded memory and automatic duplex to additional paper input capacity and a mailbox sorter with up to 10 bins, the HL-2460 offers a comprehensive range of features.

Large paper Input Capacity

To maximise efficiency you can add up to three extra paper input trays to increase capacity up to 2,100 sheets while at the same time boosting productivity and minimising the need for user intervention. The versatility of the HL-2460 means you can print on a wide range of paper weights and sizes, even envelopes.

Advanced Network capabilities

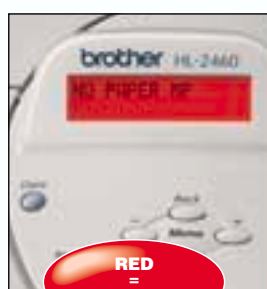

The optional NC-4100h network server provides connectivity to 10/100Mbit Ethernet networks for the HL-2460 printer, and a network ready version of the HL-2460N model is also available in most European countries.

Powerful BRAdmin Professional software can be used to manage Brother printers and also see the status of other SNMP compliant printers. Plus a built-in web server, ensures that Windows, Macintosh and even Unix users with web browsers capabilities can manage the HL-2460N printer.

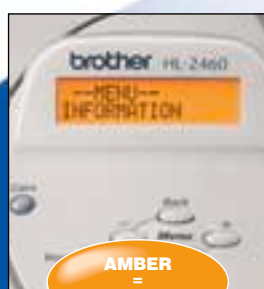

Ease of use

A simple control panel with a 3 colour LCD display that is clearly visible from a distance, guides the user through required operations as well as showing printer status at all times. It also features a job reprint function for creating multiple copies of the last print job and a job cancel function by simply pressing a control button.

User-friendly printer drivers and software ensure that all users get the best out of the HL-2460 printer. While the Brother Solution Centre (solutions.brother.com) keeps the user up to date about further HL-2460 software enhancement.

Additional Features

The HL-2460 comes with an additional range of features to maximise its potential as a shared workgroup tool:

Job Spooling

Use the **Proof Print** (proof print a document before printing multiple copies) and **Public Print** (store company wide documents and allow re-printing) options to cut down on network traffic.

All documents can be printed through the printer front panel or via a web browser.

Network Printer Driver Wizard

Install printers in networked TCP/IP environments in minutes. The Network Printer Driver Wizard guides you through a network installation and can even executable files which when sent to other users, allow them to install printer drivers and networking printing software in seconds.

Analysis Tool Software

Use the Analysis Tool Software to analyse individual or groups of users printer usage.

Storage Management Software

For easy management of specialised electronic forms, fonts logos, etc.

(Some features require optional hard disc memory, or compact flash)

Technical specification

ENGINE		MEDIA SPECIFICATIONS	
Technology	Electrophotographic (Laser)	All media types must be laser compatible.	
Print Speed	Up to 24ppm	Media Types	Multi-purpose tray Plain paper, Bond paper, Recycled paper, Envelopes, Labels and Transparencies
First Print Time	Less than 12 seconds	Paper Cassette	Plain paper, Bond paper, Recycled Paper, Transparencies
