

# Epson AcuLaser C1700 Series

DATASHEET

The AcuLaser C1700 Series is Epson's most compact A4 colour laser-class printer range for small businesses. Every model in the series is neat, highly efficient and straightforward, without compromising performance or quality.

Each model only takes up the space of a desktop printer, making it ideal for maximising valuable workspace. It still offers professional-standard print resolution of 600x600dpi to produce high-quality images, combined with vibrant and realistic colours thanks to Epson's AcuBrite toners. Performance is enhanced with a standard memory of 64MB for the C1700 and 128MB for the C1750N and C1750W<sup>1</sup> models.

The series has one of the fastest colour print speeds in its class to help boost productivity. The C1700 delivers up to 12 mono or 10 colour pages per minute, while the C1750N and C1750W<sup>1</sup> versions deliver up to 15 mono or 12 colour pages per minute.

All models have USB connections and the C1750N comes with Ethernet connectivity for multiple users. Connectivity options are expanded to include Ethernet and Wi-Fi on the C1750W<sup>1</sup>.

This series has been developed with the business user in mind and provides low-maintenance, peace-of-mind printing. The toner cartridge is the only supply item requiring replacement, which also helps to keep the total cost of ownership down.

The C1700 Series has ENERGY STAR-qualified reduced power consumption helping businesses to cut costs and environmental impact.

## TONER CARTRIDGE COLLECTION PROGRAM

This free service helps us to collect and recycle used Epson toner cartridges in a safe and environmentally-friendly way. There are three easy ways to dispose of your empty cartridges and take an active role in reducing waste:

- Put them in a toner cartridge collection box which will be picked up once full
- Return them free of charge by post
- Drop them off at an Epson Express Centre  
Please visit [www.epson.com/recycle](http://www.epson.com/recycle) for more details about the program
