

# Epson Stylus SX435W

The Epson Stylus SX435W is part of the Small-in-One range - Epson's smallest all-in-ones which are 39 percent smaller than previous models<sup>2</sup>. This model offers cost-effective printing for home users who are looking for the added benefit of Wi-Fi connectivity and PC-free printing.

The new design coupled with an ultra-compact footprint means this Small-in-One complements any modern home environment without taking up too much space.

Individual DURABrite Ultra Ink cartridges save users money as they only replace the colours used. DURABrite Ultra Ink is so versatile it is able to print lab-quality photos while at the same time produce crisp, clean text documents.

The automatic Wi-Fi set-up<sup>3</sup> makes configuring laptops and computers to print wirelessly extremely easy. Users don't need to know their network settings or connect with a USB cable, the SX435W automatically finds the relevant connection settings in order to configure itself.

With a 3.6cm colour LCD screen and accompanying memory card slot, this all-in-one offers easy-to-use PC-free photo printing with its helpful menu prompts. No more waiting for computers to power up; printing directly from a memory card is straightforward and allows greater flexibility

The SX435W also comes with Epson Connect which offers even more flexibility and freedom, allowing users to quickly and easily print photos and documents wirelessly from smartphones and tablet PCs<sup>4</sup>.

Thanks to its ultra-compact size, this Small-in-One boasts a 25 percent reduction in packaging which means home users throw away less, helping lower their impact on the environment<sup>5</sup>.
