

HP Photosmart Pro B9180gp Photo Printer

Professional pigment-ink, A3+ photo printer with individual ink cartridges, precise colour accuracy and archivability. Get gallery-quality, instant-drying, durable photos on a wide range of media. Includes HP Colorimeter for display calibration.

The Photosmart Pro B9180 Photo Printer is designed for professional photographers who need fast, durable printing up to A3+ on a variety of media types, plus the assurance of colour accuracy with the HP Colorimeter - powered by GretagMacbeth.

Gallery-quality, durable photos on a wide range of media using pigment inks.

Create professional photographs and fine art with archivable, pigment-based HP Vivera Inks. Exceptional durability – photos resist fading for more than 200 years ¹. Get black-and-white photos with perfectly neutral grey tones and deep black shadow reproductions. HP's high-capacity individual ink cartridges are ideal for high-volume printing efficiency. Handle and frame photos immediately with instant-drying, fully waterproof prints on HP Advanced Photo Paper ².

HP Colorimeter and colour controls ensure accurate and consistent prints – every time.

Get consistent, accurate colour with included HP Colorimeter – powered by GretagMacbeth technology, densitometric closed loop colour calibration and electrostatic drop detection printhead management system. Easily print photos fast using included Adobe Photoshop plug-in. HP Colour Centre tool guides you through colour management and printing – fully compatible with Adobe RGB, sRGB and ICC colour management. Get professional colour management with optional HP raster image processor (RIP).

Unrivalled performance and image quality on a wide variety of media – in any size up to A3+.

Unrivalled print speeds – up to A3+ in less than 1.5 minutes, 10 x 15 cm photos in as fast as 10 seconds. Print on a wide variety of photo & art media up to 1.5 mm thick – including a selection of HP fine art papers. Print photos on a range of sizes – from passport and panorama to A3+ (33 x 48 cm), with or without borders. Print via multiple-size input tray, by the front bypass tray or from the rear – with a straight paper path for rigid media.

¹ Based on HP Image Permanence Lab light-fade testing under glass on HP Advanced Photo Paper. Confirmation test in progress at Wilhelm Imaging Research. For more information visit www.hp.com/eur/faderesistance.

² Waterproof with HP Advanced Photo Paper, water-resistant with other HP-recommended papers. For details see www.hp.com/go/printpermanence
