Compact and convenient monochrome
MFP for small workgroups

LEXMARKTM

Print Less. Save More.

Print less? This may seem like a surprising message for a company dedicated solely to printing. But when you consider that businesses spend, on average, up to 6% of their revenue on printing and active print management can cut office print costs by up to 30%¹, it makes a lot of sense. Lexmark products, solutions and services provide innovative ways to save you time, drive down costs and reduce your impact on the environment. We are committed to helping you print less and save more.

¹ Source: InfoTrends/CapVentures, Network Document Solutions Forecast 2007-2012, Network Document Solutions Consulting Service, August 2008

Designed especially for small workgroups that want big-time results, Lexmark X264dn and X360 Series MFPs unite your most essential office functions into one compact, high-performance solution. In addition to speed, quality and simplicity, these devices offer you competitive features to save time and money, such as duplex scanning models and high-yield toner cartridges for an attractive cost per page!

Big-league performance

Office efficiency is important to the success of your business, so Lexmark makes sure small workgroups can get in on the action too! Now you can enjoy rapid output up to 33 ppm, and the first page out in as fast as 7 seconds. What's more, you'll have the tools to race through your workloads at record speeds.

- Load up to 850-sheet input capacity with an optional paper drawer
- Stack up to 50 sheets[†] in the automatic document feeder, then scan two-sided[†] documents in a single go
- Scan and send documents to various destinations, including email
- Dispatch faxes quickly and reliably with the fast optional fax modem

[†] Available on Lexmark X360 Series models

Surprisingly simple

You'll be up and running quickly with little or virtually no training. Copying and scanning is as easy as a few touches of a button. And the intuitive backlit operator panel offers two lines of text to guide newcomers through printing and maintenance with ease.

- Load up to 50 pages in the multipurpose feeder to print on forms, labels or specialty paper without reloading the main drawer
- Print image files straight from a flash drive with the Direct USB port[†] – you can scan to it as well!
- Manage your scanned documents easily with the Lexmark Scan Center
- Load supplies in just seconds with convenient front-loading access

[†] Available on Lexmark X360 Series models

Quality where it counts

With their robust, high-quality design, Lexmark MFPs deliver reliability that makes a difference. They bring excellence to every aspect of the multifunction experience – from the invoices you're scanning to the important documents you need printed for the next meeting.

- Achieve superior scan resolution with the 24-bit colour CCD scanner
- Add a professional touch with up to 1200 x 1200 dpi print quality
- Get great results on various media types, including card stock and labels
- Enhance the quality of your work environment with built-in Quiet Mode

Print black, think green

Consolidating all your document functions into one efficient network device helps you reduce energy, hardware and supplies consumption. But Lexmark takes eco-accountability further to help you print responsibly at every phase of your office work.

- Conserve resources with 9,000*-page high-yield replacement cartridges
- Save paper with built-in duplex printing – standard on all models
- Save energy with the instant-warm-up fuser
- Recycle easily and free of charge with the Lexmark Cartridge Collection Program

Lexmark X264dn & X360 Series

Explore the features that keep you moving

Hands-free copying
Scan up to 50 pages at a time with the automatic document feeder.

Intuitive messaging
With two lines of text, your MFP conveys clear maintenance instructions.

Duplex scanning¹
No need to turn your originals manually - the MFP does the work for you!
¹ Available on Lexmark X360 Series models

Direct USB printing
Just walk up, insert a flash drive, select a PDF or image file and start printing.

Multipurpose feeder
Print on envelopes or other media types without having to open the paper drawer.

Low intervention
High-capacity cartridges deliver thousands of pages before replacing.

Optional extra input
Boost your total input capacity by adding a second drawer (up to 250 or 550 sheets).

Wireless freedom
Break free from network cables with the Lexmark X364dw, a Wi-Fi CERTIFIED 802.11n draft 2.0 wireless printer.

Peace-of-mind service

Like all of Lexmark's business-class devices, the Lexmark X264dn and X360 Series MFPs come standard with Lexmark's solid guarantee of 1-Year Onsite Service, which provides you with next-business-day response. You can also extend your guarantee further with a customised offering to match your specific needs. This can cover everything from guarantee extensions (up to a total of five years) to installation, training and much more.

The Productivity Checklist

If you've got all these, then you've got a Lexmark!

Instant Warm Up

With Lexmark's instant-warm-up fuser, your MFP will be racing through documents in the time it takes many other devices to wake up. In addition to getting your print jobs in your hands faster – just seconds from standby – you'll also benefit from increased efficiency. So you can save time, energy and money all at once!

Superior scanning

The Lexmark Scan Center offers a complete range of features to 'digitise' documents and integrate them into your daily workflow with ease. Preview your image, adjust contrast and colours, and save your scan in multiple file formats. Then send your scan to various destinations, either straight by email or over your network to a shared drive, PC or business application. With built-in software for optical character recognition (OCR), you can even transform hardcopy text into editable form – a useful tool that will save you having to retype heavy text from scratch.

Smart supplies

Lexmark hardware and supplies are made for each other. When used together, they ensure optimal performance, protecting the quality of your documents as well as your device. Lexmark cartridges help protect the environment, too. Using Lexmark high-yield toner cartridges conserves resources by reducing the number of cartridges you'll use over the life of your printer. Lexmark practises 'zero landfill' for cartridges, reusing or recycling 100% of all returns through the free-of-charge Lexmark Cartridge Collection Programme.

Effortless manageability

Take a load off your IT department. These devices are network-ready and very easy to set up. If you have multiple Lexmark devices installed, the Lexmark Universal Driver offers even easier deployment. Once up and running, step-by-step on-screen messaging provides users with clear information. What's more, Lexmark MarkVision Professional software provides simplified remote management and automated tools to keep your workday flowing!

Get exactly the performance you need

Lexmark X264dn

Compact and reliable MFP for small workgroups

- Print, copy, scan and fax
- Up to 28 ppm print speed
- First page out as fast as 7.5 seconds
- 64MB of RAM standard
- Up to 250-sheet input and single-sheet priority bypass feed
- Ships with 1,500*-page Lexmark Return Program Toner Cartridge
- Choice of replacement toner cartridge yields: 3,500* or 9,000* pages
- Recommended monthly volume: 250 to 4,500 pages

Lexmark X363dn

Fast, versatile 3-in-1 MFP with advanced features

- Print, copy and duplex scan
- Up to 33 ppm print speed
- Up to 50-sheet multipurpose feeder
- 128MB of RAM standard
- Ships with 3,000*-page Lexmark Return Program Toner Cartridge
- Choice of replacement toner cartridge yields: 3,500* or 9,000* pages
- Recommended monthly volume: 750 to 5,000 pages

Lexmark X364dn

A complete multifunction office solution with fax

- Print, copy, scan and high-speed fax
- Wireless-ready model available (Lexmark X364dw)

Maximum Monthly Duty Cycle

Maximum Monthly Duty Cycle is defined as the maximum number of pages a device could deliver in a month. This metric provides a comparison of robustness in relation to other Lexmark printers and MFPs.

Recommended Monthly Page Volume

Recommended Monthly Page Volume is a range of pages that helps customers evaluate Lexmark's product offerings based on the average number of pages customers plan to print on the device each month. Lexmark recommends that the number of pages per month be within the stated range for optimum device performance, based on factors including: supplies replacement intervals, paper loading intervals, speed, and typical customer usage.

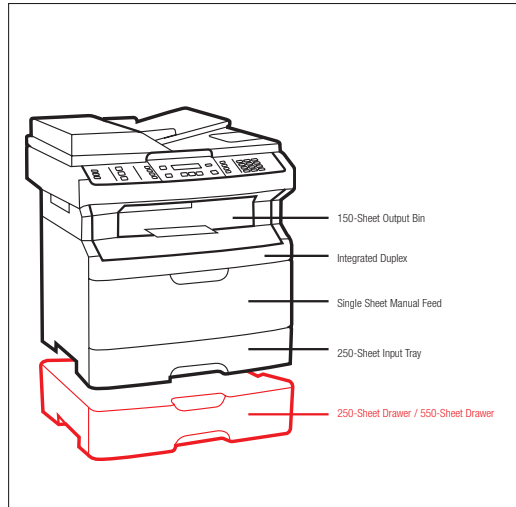

License Terms/Agreement

Printers are sold subject to certain license/agreement conditions. See www.lexmark.com/printerlicense for licensing details
