# Lexmark X852e

## Workflow enhancement begins here!

Designed especially for large workgroups looking for smarter ways to streamline productivity, the Lexmark X852e offers endless possibilities. Besides its rapid 45 ppm print speeds and many innovative features, it also provides seamless compatibility with Lexmark's industry-leading document-workflow solutions.

### Beyond the printed page

Either embedded or server-based, the X852e provides a robust and reliable framework for Lexmark's wide range of enterprise solutions. Now it's easier than ever to boost efficiency and lower costs via distributed document capture, document distribution, print on demand, document accounting and many others!

### Seeing is believing

It doesn't take long to see why the X852e will be a welcome addition to your office. Its huge LCD touch-screen offers a visually attractive – and extremely practical – way to access all the features you need. Intuitive, adjustable and fully customisable, it's your gateway to greater business efficiency.

### Scan and copy with ease

The large flatbed colour scanner is great for scanning and copying big reports. You can even preview scans on the LCD screen, or scan straight to a USB key. And if it's a big stack of 2-sided originals you need copied, no problem. Just place it into the 75-page Automatic Document Feeder, touch the screen and go!

### Flexibility from start to finish

The X852e is ideal for all your diverse print jobs. Use the stackable drawers and generous input capacity to load up on everything from envelopes and cardstock to transparencies and A3 sheets. Then, put the final touches on your documents with stapling, stacking and hole punch, thanks to the optional finisher.
