

Up to 30 ppm

Up to 8 ppm

64 MB (standard model)  
128 MB (network models)

500 Mhz

2400 image quality

USB

## Robust, high-performance printer that delivers the value of colour

- A4 colour laser
- Up to 30 ppm mono, 8 ppm colour
- Best-of-breed processing for fast throughput
- Efficient networking capabilities
- Space-friendly size
- High print quality for professional-looking results

# The colour laser printer your business can afford.

The Lexmark C510 is the ideal first step into the world of colour laser printing. This affordable model is designed for all your colour and mono printing needs. Its efficient networking architecture and on-board controller reduce the dependency on your PC and network. With print speeds of up to 30 ppm in black and up to 8 ppm in colour, a 500 MHz processor and 64MB of memory means complex jobs print quickly. A small footprint, large paper capacity and the availability of a duplex option help meet the needs of a busy office.

## Better performance, better quality

The C510 is built to meet the needs of a demanding business. It creates professional, high-quality documents and is perfect for all your everyday printing requirements. Handling spreadsheets, graphics and presentation documents with ease in 2400 Image Quality. With 30 pages per minute, this printer is a fast monochrome printer. But even better with 8 pages per minute in colour, you can beat the speed of most inkjet printers on the market... and you will be surprised about the low cost per page in mono as well as in colour!

## Easy-to-use, easy-to-manage

The Lexmark C510, is so robust it's practically self-managing. The full-function operating panel is user-friendly and with easy front loading toner replacing toner cartridges takes just a few seconds. Fully compatible with Windows, Mac, Citrix and SAP the Lexmark C510 supports almost any business applications and network environments.

Supported by Lexmark award winning technology, innovative business applications and strong strategic service offerings, Lexmark's highly skilled, specialised account team can assist your organisation to print smarter, move critical information faster and manage your output related costs more efficiently.

This value proposition, Print-Move-Manage, translates into a set of industry-specific solutions and expertise allowing you to improve, maintain and manage your document and printing infrastructure.

**PRINT:** A full range of advanced printing solutions based on industry leading technology and associated product services that provide leading edge functions at a very competitive cost. These include printers, multifunction devices as well as network and application-specific hardware and software solutions

**MOVE:** Consulting and implementation services designed to increase productivity while reducing the costs related to your paper-intensive processes through device consolidation, distributed document capture, distributed printing, electronic form integration and paper document workflow automation

**MANAGE:** A range of services offerings designed for today's business. Starting from the traditional leasing of equipment through per page based billing up to full contract management and outsourcing of your output device fleets. These offers are designed to deliver you the most cost effective solution for output and document management.
