

KONICA MINOLTA

The essentials of imaging

magicolor 2590MF

Your compact total office solution

Multifunctional colour workgroup printer 5/20 ppm

magicolor 2590MF

The compact **all-in-one**

Integrate the magicolor 2590MF into your office space with ease and confidence, knowing that you have the ultimate business device, all in a single compact unit. It combines sharp colour printing, easy document handling and scanning, as well as faxing and copying. Smart professionals will appreciate the full range of functions, high productivity and cost-efficiency from this printer.

➔ **One compact office unit that does it all**

Cover all the essential functions your office requires with the magicolor 2590MF. Print, copy, scan and fax all from one device and save time and money as there is only one machine to monitor, maintain and order supplies for. Being compact, this printer can be easily incorporated into the smallest of office spaces.

→ Print and copy like a pro

With the magicolor 2590MF you can handle all your printing and copying needs in-house, and be assured that you get a professional quality outcome while eliminating the cost of outsourcing. When colour printing is required for professional visual impact, this machine delivers excellent picture quality at a copy and print speed of 5 ppm at 2400 x 600 dpi. In monochrome you can rely on a print and copy speed of 20 ppm to get the job done in the least time possible.

→ Scan and fax like a specialist

Optimise document handling, data sharing and archiving by converting paper documents and images into digital files with PaperPort SE software. Scan your documents (TWAIN and WIA protocol supported), save them as JPEG, TIFF or PDF and insert them straight into your selected application (e.g. Word®, Powerpoint®, Excel®) or attach them directly into an email with smooth SMTP authentication. Just use the LinkMagic software to manage scanning (up to Legal size) on your PC (via USB) – and give your paper documents a new 'digital' lease of life. The OCR (optical character recognition) feature converts scanned documents into editable text that you can use again and again. As a fax the magicolor 2590MF provides ECM/ Super G3 capability, which allows you to send and receive documents at up to 33.6 Kbps with MH/MR/MMR/JBIG compression support.

→ Print photos direct

Connect your PictBridge-compliant digital camera to the magicolor 2590MF's PictBridge input, and immediately print high quality photo's without the need for a PC. Convenient functions let you manage and edit your photos right from your camera.

→ Print smoothly with flexible paper options

Commercial quality and efficient printing is now possible when producing brochures, presentations and promotional materials. The automatic duplex unit saves time and reduces paper costs. The standard 50 sheet automatic document feeder makes copying and scanning easy, whilst a dedicated tray for printing envelopes, stationary and mailing labels ensures your prints remain immaculate. The large paper capacity of up to 700 sheets, means high volumes of prints can be made without frequently loading paper.

→ Operate with ease

Streamline your fast-paced office operations with the user-friendly features of the magicolor 2590MF. Standard 128 MB onboard memory, 10/100BaseT Ethernet and USB 2.0 ports provide flexible office connection options. The one-touch control panel allows you to customise print jobs. Dedicated colour/monochrome copy buttons provide more cost-effective copying, enabling you to monitor your consumable and machine status via the display. Maintenance from a distance is a significant asset with the PageScope® Web Connection, tracking paper and toner levels, email configuration, network and fax settings on your PC. The convenient front panel access makes it easy to replace consumables and replenish paper supplies.

KONICA MINOLTA

Duplexer supports plain paper only.

The addition of some options, in some combinations may cause the product to become non-compliant. Establishment of new regulations may cause the product to become non-compliant. Energy Star compliance does not represent an EPA endorsement of any product or service. Specifications and accessories are based on the information available at the time of printing, and are subject to change without notice. For the latest information, please visit www.konicaminolta.co.uk/printer.

The stated life expectancy of each consumable in the printer is based on printing under specific operating conditions such as page coverage for a particular page size (5 % coverage of A4). The actual consumables life will vary depending on the use and other printing variables including page coverage, page size, media type, continuous or intermittent printing, ambient temperature and humidity. For more information about toner life expectancy, visit <http://printer.konicaminoltaeurope.com/tco>
