

C510dn Specifications

Professional in-house colour, delivered faster and more efficiently

Perfect for any business with busy workgroups that want the maximum return on their IT investment. The compact low profile C510dn has a host of essential features as standard, such as double sided printing, built-in networking and low running costs. Add a full three-year warranty for extra peace of mind and the C510dn delivers much more than any ordinary office A4 colour printer.

This versatile, efficient and fast device (up to 26ppm for colour and 30ppm for mono) is built for endurance and allows you to print on a wide range of media so that you can do so much more in-house. The C510dn is ideal for everyday use in document-intensive environments.

True versatility

High Definition toner produces vibrant, saturated colour with a stylish finish, and an ability to print on a huge range of high quality single and double-sided documents, from everyday items through to business cards, banners, and more. The C510dn fits seamlessly on any desk space for easy arms-reach access to all your printed documents.

- ProQ2400 multi-level output quality, 1200 x 600dpi print resolution
- A6 to A4 and up to 1.2 metre banners; card stock up to 220gsm
- Microfine High Definition toner for superb print quality
- Compact, low profile design lets you pick up your documents with absolute ease

Effortless efficiency

High yield toner cartridges and a paper supply that can be expanded to 880 sheets mean longer uninterrupted printing. Plus a convenient multi-purpose tray (MPT) lets you print on specialist media. The C510dn is fully networked as standard, allowing it to be shared across many users.

- 5,000 page toners and separate drum unit reduces user interventions and gives lower running costs
- Standard paper supply of 350 sheets, including 100-sheet MPT (can expand to 880 sheets)
- Automatic double sided printing reduces paper consumption and saves money
- 10/100 Ethernet built-in integration with your network, allowing sharing across many users, saving costs

Enhanced productivity

With a fast 'first page out' time and print speeds up to 30ppm, the most difficult deadlines become more manageable. The processor and large memory lets you take on large jobs with ease and there's an intelligent ECO mode that automatically supports faster throughput on small jobs.

- First page prints in just 8 seconds and continuous colour printing at up to 26ppm (up to 30ppm black and white)
- 266MHz processor and 64MB memory

Supporting your environmental policies

Built in a factory with "CarbonZero" credentials it comes as standard with automatic double sided printing which reduces paper use, and an ECO mode to help conserve energy and resources. Importantly when not in use, the 'Deep Sleep' mode reduces power consumption to negligible levels.

- ECO mode reduces energy consumption by keeping fusing temperatures low for one and two page jobs
- Deep Sleep mode saves you money by reducing energy consumption to less than 2.0W
- Colour Access Policy Manager utility for controlling and monitoring user access rights.
- Automatic double sided printing reduces unnecessary paper usage

Robust and reliable

Look beyond the thoughtful ergonomic design of the C510dn and you'll see it is tough enough for the most demanding workloads.

- Ultra-reliable digital LED print technology, pioneered by OKI and proven over 20 years
- Robust 45,000 page per month duty cycle
- Industry-leading three-year warranty as standard

*Toner: A4 pages yield compliant with ISO/ISC 19798. Printer shipped with toner for 2,000 A4 pages.
**Drum: Average life of 3 pages per job from tray 1 in simplex mode.

¹Check local OKI Printing Solutions website for latest driver releases and OS compatibility; ²Windows only; ³Including all consumables

Consumables Information: For the protection of your printer, and in order to ensure that you benefit from its full functionality, this model has been designed to operate only with genuine OKI Printing Solutions toner cartridges. These can be identified by the OKI trademark. Any other toner cartridge may not operate at all, even if it is described as "compatible", and if it does work, your printer's performance and print quality may be degraded.

Simply Unique - 3 Year Warranty

Our devices are manufactured to the highest standards of quality and technology, which has been confirmed by independent tests. We are so convinced of the high quality of our products that we are offering you an extension of the standard warranty period to 3 years – for free! Simply register your product within 30 days of purchase to be eligible for our

unique all inclusive offer. Fully covered by OKI! For further information please visit WWW.OKIPRINTINGSOLUTIONS.CO.UK/WARRANTY

Without registration, the standard pan-European 1 year warranty applies.
