Get in touch with easy Wi-Fi and total versatility.

Simple and fast installation for quality wireless printing

When businesses are adapting to ever-changing technologies the Samsung SCX-4623FW ensures that one touch Wi-Fi setting is as quick as simple as using the printer itself.

Setup is easy with our secure, one-touch wireless connection

The SCX-4623FW Wi-Fi Protected Setup button lets you connect quickly and easily. Simply select WPS button on the printer, press WPS button on the wireless access point(router) and your connection automatically configures and protects your wireless network for you.

* A wireless access point which supports Wi-Fi Protected Setup™(WPS) is required.

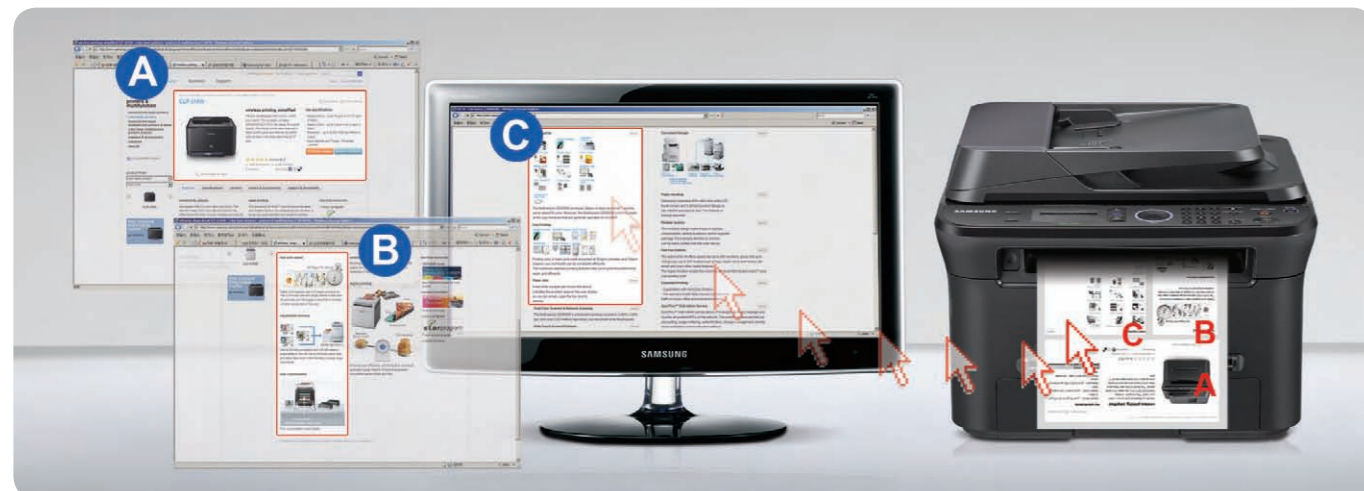

Quick and easy web page printing

Samsung's **AnyWeb Print** software is another useful feature. It allows you to select, drag and drop content from different webpages into a new blank page on screen and print it without any resizing or other editing.

AnyWeb Print is a quick and easy way of pulling information together, and you can save the pages you create either as tiff files or pdfs. They can be printed using the Print Screen button or your normal print menu. So you can quickly and easily print what you see.

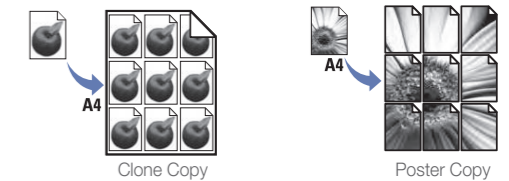

- AnyWeb Print software enables you to gather data together, and handle information more effectively.

Versatile copy functions

Samsung SCX-4623FW printers offer a range of advanced copy features to make your life easier, and to make your office more productive:

- ID card copy : This unique feature copies both sides of an ID card on to one sheet. The topside is scanned into memory, and automatically printed when the reverse is scanned, without multiple sheet feeding
- Clone copying : allows you to print multiple versions of an image or design of any size, on to a single A4 page
- Poster copying : enlarges an image to 3 x 3, and prints it out on nine perfectly-aligned A4 sheets

Blue compass navigation

Samsung's unique Blue Compass Navigation is easy to learn and even easier to use, so you can be more productive, more quickly. The navigation array gives you instant access to all the different print functions and controls.

Simple, intuitive menus and buttons add to the savings in training and troubleshooting time. User-friendly GUI screens make print, copy, scan and fax operations quick and easy, and printer control panels have everything covered, including job status, toner level, paper jam, paper empty and cover open alerts.

PC fax functionality

SCX-4623FW offer fax to PC capability, so received fax data is delivered straight to your PC via wireless network.

Similarly, a PC application converts document files to image files and allows you to send these via wireless network. This means you can send and receive faxes at your PC, and all fax information is stored and managed at your desk.

So whether you're sending or receiving fax transmissions, you can handle messages electronically, without the need for hard copies. As well as working more efficiently, you also save on paper and toner costs.

Streamlined design

- 1 **Control panel**
A clean and uncluttered panel and easy to use Blue Compass Navigation button allows you to navigate menu options quickly and easily.
- 2 **Enclosed cassette tray**
Stylish and practical. The enclosed cassette tray provides a compact finish and ensures the paper is kept dust free and clean, helping guarantee reliable professional prints.
- 3 **Stylish**
With streamlined exterior it is designed to fit perfectly into any professional business, helping to add a touch of style.
