OKI

THE WORLD'S SMALLEST HIGH-PERFORMANCE A4 COLOUR PRINTER

Meet the small colour printer that doesn't compromise on cost effectiveness, productivity or efficiency.

For organisations where space is at a premium, buying a compact printer traditionally meant compromising on quality, productivity or running costs.

Not anymore. The C651dn from OKI, delivers the performance, media handling and cost-efficiency of a workgroup device, in the format of an A4 colour desktop printer.

Who is the C651dn for?

The C651dn is built for demanding environments, from warehouse floors and production lines to kiosks with limited space. It also fits well into busy back offices that require high print volumes and with consistent professional quality prints.

Smart, connected and secure

The C651dn offers modern connectivity across platforms, with optional Wi-Fi, Wi-Fi Direct and support for Mopria™³, IPP Everywhere™, AirPrint and Adobe PostScript. It also meets the latest energy and data security standards, helping organisations stay efficient, compliant and protected.

Why the C651dn?

- **Extremely compact** – Designed to work in the tightest of spaces, the C651dn's small frame requires a minimal space to operate. With full front access and only 2cm required on the sides to function and for maintenance, the C651dn can be placed almost anywhere.
- **Superior print speed** – Despite the compact size, the C651dn outperforms in both print speed and media handling, printing up to 35 pages a minute, while also printing with ease on media up to 256gsm and up to 1.32m long.
- **Reliable** – Thanks to its new unique design making much more use of metal in place of plastic, the C651dn is the most robust device in its class. Designed for a long durable life.
- **Exceptional print quality** – Create documents and marketing collateral in stunning colour with LED technology, quickly and easily without compromise.
- **Unrivalled ROI** – Its very long life and high duty cycle are supported with separate toners and drums to ensure the maximum usage of all consumables – perfect for high volume, high coverage colour printing. All consumables are user changeable with no hidden surprises.
