Footnotes

11 Ink droplets can be placed with a minimum pitch of 1/4800 inch

21 A4 document print speed on plain paper is measured based on average of ESAT in Office Category Test of ISO/IEC 24734 standard.

131 Page Yield is the estimated value based on Canon individual test method using the ISO/IEC 19752 monochrome chart and continuous printing simulation with the replacement after initial setup.

14) Print colour document with optional colour cartridge. This product is a monochrome inkjet printer.

Although colour printing can be done by purchasing a compatible colour cartridge, quickly using up the ink in the installed cartridge is recommended. Once the installed colour cartridge is empty, please replace with the contact protector or a new colour cartridge.

ISI Plain Paper(A4, B/W). Acoustic Noise is measured based on ISO7779 standard.
IsI Print: When printing ISO/JIS-SCID N2 (printed by inkjet printer) on A4 size plain paper using default settings.

[7] Typical Electricity Consumption (TEC) value: TEC value was calculated assuming the unit will be constantly switched among operational mode, sleep mode, and power-off mode for 5 days, and that it will be either in sleep or power-off mode for the remaining 2 days within the same week. The TEC value of this product is calculated by Canon on accord using TEC measurement procedure regulated in International ENERGY STAR Program.
