PRODUCTIVITY
Double-sided printing

Workflow efficiency

Meet ambitious business demands with a robust and reliable printer with fast production times. This series delivers prints at speeds of up to 38ppm in A4 and offers double-sided printing as standard. Double-sided single-pass scanning will keep your workflow at a premium too.

Tailor-made

Tighten efficiency with the Application Library. On-screen buttons automate and speed up everyday tasks, including printing stored forms, scanning to email and copying documents so that they can be accessed with just a single tap of a button. The standby display can also be customised to suit you and your business needs.

Seamless connectivity

Take control on the move with smooth mobile connectivity. Print wirelessly from smartphones or tablets with the Canon PRINT Business app or get printing straightaway without an app thanks to AirPrint (iOS) and Mopria (Android) compatibility.

Security and control

Put security first with secure PIN print, which restricts people from viewing confidential documents. Even greater security is offered via the Universal Login Manager (ULM) with MF446x and MF449x, which provides user authentication for greater privacy.

High quality

Whether you are printing a sales presentation or a small document for internal use, this series ensures prints are always high-quality thanks to improved toner cartridges, which now come with Auto Seal Removal.
