Epson **WorkForce AL-M300DN**

The WorkForce AL-M300DN is one of Epson's most hardworking and reliable A4 monochrome laser printers, thanks to its 100,000-page duty cycle - the highest in its class[1]. This model has a compact footprint that suits small workgroups and comes with a 300-sheet paper capacity as standard - expandable up to 550-sheets.

Aimed at small workgroups who are looking for high productivity, this model offers reliable, high-performance printing as well as Gigabit Ethernet and fast, double-sided printing.

The Workforce AL-M300DN also offers consistently fast printing up to 35ppm[2], with a first-page-out time of 5.5 seconds, as well as high-quality results up to 1,200dpi resolution. Internal memory can also be increased to 1152Mb, to help process all business printing needs.

High-performance is teamed up with reliable printing, thanks to high-yield toners and a heavy-duty output, which provides excellent return on investment. In addition, users can print and share from anywhere in the office thanks to Epson's mobile printing app, Epson iPrint. This user-friendly application enables wireless printing from smartphones and tablet PCs[3].

The reliability of the WorkForce AL-M300DN allows businesses to concentrate on their work without the inconvenience of downtime, enhancing productivity and providing greater peace of mind.
