Perfection V850 Pro

DATASHEET

Professional photographers and serious amateurs can now convert their film and photos into high-quality digital images

Featuring enhanced high-pass optics that deliver the highest level of image quality with faster scan speeds, the V850 Pro can convert a wide range of media and film formats into professional-quality digital images. This high-productivity 6400dpi scanner requires virtually no warm-up time, can remove dust and scratches automatically and includes two sets of high-quality film holders.

Choice of resolution

The V850 Pro features a dual lens system that automatically selects the optimal lens, with up to 4800dpi optical resolution for photo scanning and 6400dpi when scanning using film holders.

Scan from any source

Scan a range of film formats in sharp focus thanks to the improved quality film holders with their adjustable height control and rigid design. The V850 Pro also supports film formats up to 8x10 inch when placed directly on the scanner glass. **High productivity**

Epson's ReadyScan LED light source has a warm up time of less than one second, so scanning can start almost instantly. Two sets of film holders means you can prepare a second set of orginals for scanning while the first is still scanning.

Cleans-up images

Digital ICE Technologies automatically removes imperfections such as dust, hair, scratches and fingerprints from both film¹ and photos to restore images to their former glory with the minimum of effort.

The right tone

Take advantage of excellent tone reproduction with 4.0 DMax optical density. The V850 Pro can detect the exact tonal range of the original, making sure the brightest and darkest areas of images are accurately reproduced to reveal impressive detail and dynamic range.

KEY FEATURES

- Professional quality scanning Slides, film, medium format & prints
- Dual lens system Swaps between 6400dpi for slides and film, and 4800dpi for photos
- High productivity

One second warm up time and two sets of film holders

Dynamic range

Accurately reproduce tonal range and gradation of the original

Removes imperfections

Digital ICE Technologies cleans-up old film and photos

PRODUCT SPECIFICATIONS

TECHNOLOGY	
Scanner type	Flatbed Scanner
Scanning Resolution	6,400 dpi (Horizontal x Vertical)
Optical Density	4 Dmax
Color Depth	Input: 48 Bits Color , Output: 48 Bits Color
SCANNER	
Optical Sensor	Matrix CCD with Micro Lens and High Pass Optics
Light Source	White LED, IR LED with ReadyScan LED Technology
Scanning Method	Fixed documents and moving carriage
Output Resolution	25~12,800 (1 dpi step) dpi
SCANNING FEATURES	
Image Improvement	Grain reduction, Dust removal, Print Image Matching II, Color palette tool for Easy Color Fix,
	Backlight Correction, Colour Restoration, Unsharp Mask with Noise Reduction, De-Screening
	with Document Type Optimizer, Digital ICE Technologies (for film and photo), Tone Curve
	Adjustment with Histogram
CONNECTIVITY	
Interfaces	Hi-Speed USB - compatible with USB 2.0 specification
GENERAL	
Supply Voltage	AC 220 V - 240 V, 50 Hz - 60 Hz
Product dimensions	503 x 308 x 152 mm (Width x Depth x Height)
Product weight	6.6 kg
OTHER	
Warranty	12 months Carry in
	Optional warranty extension available

Perfection V850 Pro

WHAT'S IN THE BOX

- AC adapter
- Driver and utilities (CD)
- Main unit
- Setup guide
- Software (CD)
- USB cable
- Warranty document
- Power cable
- 8 film holders: 35mm negatives (x2), 35mm slides (x2), medium format (x2) and 4 x 5 inch (x2)

OPTIONAL ACCESSORIES

 Epson Fluid Mount B12B818272

LOGISTICS INFORMATION

SKU	B11B224401BY
EAN code	8715946545301
Multiple Order Quantity	1 Units
Pallet Size Euro	16 Units
Pallet Size Block	24 Units
