Epson **TM-C3400-LT Series**

Print colour labels, tickets and wristbands on demand with the Epson TM-C3400-LT - a standalone label printing terminal. The TM-C3400-LT features an integrated control board plus a dirt and moisture-resistant touch-screen, and is housed in a dust-proof case that's equivalent to IP5X. Its small footprint and all-in-one, plug-and-play concept make the TM-C3400-LT ideal for users with limited space.

The TM-C3400-LT's colour printing capabilities improve identification, helping prevent critical errors in a number of applications, such as wristbands and prescription labels for healthcare. Printing custom designs in full colour and on demand reduces costs associated with pre-printing, including stock management and label wastage.

This highly versatile label printing terminal is compatible with a wide range of materials, including matte and glossy-coated labels and synthetic media in a wide range of formats. Whatever the media used, Epson's DURABrite Ultra pigment ink gives durable prints that resist smudging, fading, water and most other liquids, and can survive demanding storage conditions. Another benefit of inkjet technology is improved security, as thermal transfer ribbons can carry imprints of sensitive information.

For reliable results, Epson's patented automatic nozzle checking technology (AID) senses and fixes printer nozzle clogs or dead pixels in barcodes.

The TM-C3400-LT is designed to be easy to use, with all functions at the front, including consumables replacement. Its TFT touch-screen provides intuitive control, and can be tilted up to 90° for an optimised viewing angle. The pre-installed Windows® operating system, printer drivers and software utilities enable straightforward printing, supported by the optional start-up label software.

KEY FEATURES

- Touch-screen & control board
- Splash-resistant, dust-proof case
- Compact, all-in-one design
- Prints labels, tickets & wristbands
- Ink resists water, smudging, fading

EXCEED YOUR VISION

PRODUCT SPECIFICATIONS

INTERFACES

Interfaces	USB 2.0 Type A (4x)

POWER

Power Supply	PS-180

GENERAL

Product dimensions	300 x 213 x 345 mm (Width x Depth x Height)
Product weight	15,4 kg
Color	White
Installation	horizontally
Noise Level	Operation: 54 dB (A)
Humidity	Operation 20% - 80%, Storage 5% - 85%
Temperature	Storage -20° C - 50° C

STANDARDS COMPLIANCE

EMC Standards	CE marking
Safety standards	TÜV

OTHER FEATURES

Cutter	Full Cut
Sensors	Front cover open sensor, Paper End Sensor, Paper Near End Sensor, Black Mark Sensor, Paper Jam Sensor, Label sensor, Ink cartridge sensor, Ink near end sensor

OTHER

Warranty	12 months Carry in

WHAT'S IN THE BOX

- Ink Cartridge
- Label paper roll
- Main unit
- Paper tray
- Power switch cover
- Setup guide
- User manual
- Software (CD)

LOGISTICS INFORMATION

- Dimensions Single Carton
  400 x 500 x 520 mm
- Carton Weight
  18,5 Kg
- Units
  1

1. Cutter life dependent on media used
