

Epson WorkForce DS-510N

DATASHEET

With its Network Interface Unit, high speed scanning and fast data processing features, this document scanner can be shared with multiple employees and is ideal for easy document workflow. In addition, with Document Capture Pro solutions, multiple users can benefit from Push Scan features.

High-speed scanner

This document scanner features a compact footprint and high speed scanning of up to 26ppm / 52ipm, even at 200 and 300dpi in colour or monochrome. This, combined with hardware JPEG compression, makes large scan jobs faster to process. With the Network Interface Unit, the WorkForce DS-510N is ideal for sharing across office/department networks.

Document workflow

Epson Document Capture Pro makes it easy to integrate this business scanner into your document management system, speeding up workflow and enabling you to capture, convert and distribute scanned information into your document repositories. In addition, barcode recognition and Zonal OCR will help automate large document processes, such as file naming and folder creation. The WorkForce DS-510N is easy to integrate thanks to TWAIN, ISIS and WIA driver support.

Efficient

Epson Scan software offers a wide range of advanced document imaging features, including multi-document size detection, text enhancement and automatic de-skew to improve efficiency and increase productivity.

Network sharing

Share this network-ready model between users. Combined with Document Capture Pro software, the Network Interface Unit allows you to customise 'scan to' job commands, such as 'scan to' Microsoft SharePoint™ or Scan to Cloud, among others, from the scanner's panel.
