*Only ECOSYS M2530dn. **Not available for ECOSYS M2030dn PN.

These compact A4 MFPs can increase the productivity of any office. They have print and copy speeds of up to 30 pages per minute, and a time to first print of only 6.9 seconds. A large-capacity document processor makes light work of scanning double-sided originals, increasing throughput and maximising workflow. Integral time saving functions are easily accessed through a user friendly display and control panel.

ECOSYS stands for ECOlogy, ECONomy and SYStem printing. With their long-life components, ECOSYS devices are designed to maximise durability and minimise the total cost of ownership with regard to maintenance, administration and consumables. The cartridge-free system means that only the toner has to be replaced regularly. The modular design concept allows you to add workflow-enhancing functions as required and the integrated system software provides long-term cross-network compatibility. KYOCERA's long life components cost you and the environment less.
