To answer the ever-growing demands of small and medium-sized workgroups, KYOCERA has developed these new A4 multifunctional devices, combining speed with reliability in colour and black and white. Both devices are equipped with an integrated colour touch panel which increases their usability by providing direct access to the numerous standard functions that are available. Document workflow can be further optimised thanks to dedicated program keys and KYOCERA's integrated solutions platform, HyPAS. What's more, KYOCERA's renowned long-life components will treat the environment and your budget with utmost care.

ECOSYS stands for ECOlogy, ECONomy and SYSTEM printing. With their long-life components, ECOSYS devices are designed to maximise durability and minimise the total cost of ownership with regard to maintenance, administration and consumables. The cartridge-free system means that only the toner has to be replaced regularly. The modular design concept allows you to add workflow-enhancing functions as required. Integrated system software provides long-term cross-network compatibility.
