MONOCHROME PRINTER FOR A4 FORMATS

▶ print ▶ copy ▶ scan ▶ fax

## THE POWERFUL PRINTER FOR SMALLER OFFICES

For both smaller teams and single users this tough, durable and reliable device is the perfect choice. With up to 40 ppm in black and white this device is capable of handling large workloads. Its aesthetic design, great usability and flexibility in paper handling make it a must for small teams. Due to its long-life components, running costs and environmental impact are exceptionally low.

- ▶ Up to 40 pages per minute in A4 with up to 1,200 dpi resolution
- ▶ Duplex unit for double-sided printing as standard
- ▶ 100-sheet multi-purpose tray, 500-sheet universal cassette
- ▶ 5 line LCD display for easy navigation and clear messages
- ▶ High capacity of 128 MB RAM for complex documents as standard
- ▶ Convenient printing directly from USB Flash memory device
- ▶ Powerful options for enhanced functionality and performance
- ▶ Optional Gigabit or wireless network functionality
- ▶ Exceptionally low printing costs in its class

Double sided printing saves environmental resources and money.

The option of an additional interface like wireless LAN for advanced flexibility in the office.

MONOCHROME PRINTER FOR A4 FORMATS

ECOSYS stands for ECOlogy,  
ECONomy and SYStem-printing.

With their long-life components, ECOSYS devices are designed to maximise durability and minimise the total cost of ownership with regard to maintenance, administration and consumables. The cartridge-free system means that only the toner has to be replaced regularly. The modular design concept allows you to add workflow-enhancing functions as required. Integrated system software provides long-term cross-network compatibility. KYOCERA's long-life components cost you and the environment less.

## PRESCRIBE IIe

With the KYOCERA page design and control language PRESCRIBE IIe even complex graphics, logos and forms (multipart forms) can be created independently on the system and saved and updated in the printer. Consequently, integration into print files no longer applies. They are only accessed as required relieving the load on the network.

## KYOCERA NetViewer

KYOCERA NetViewer enables complete monitoring and control of all ECOSYS printers and digital KYOCERA multifunction units from any Windows® PC, providing ideal network administration. It also supports the standardised SNMP protocol.

## Command Center RX

The Command Center RX enables the control and management of various settings by accessing the device via Web browser. E.g. automatic updating of screens, customising user screens and viewing department and restriction settings.

## USB Host Interface for USB Flash Memory

Documents can be printed directly from a USB Flash Memory (e.g. USB stick) via the USB host interface. The documents stored as PDF, XPS, TIFF or JPEG are selected directly via the printer's control panel. No computer is required.
