About printing (Printing the model at home)

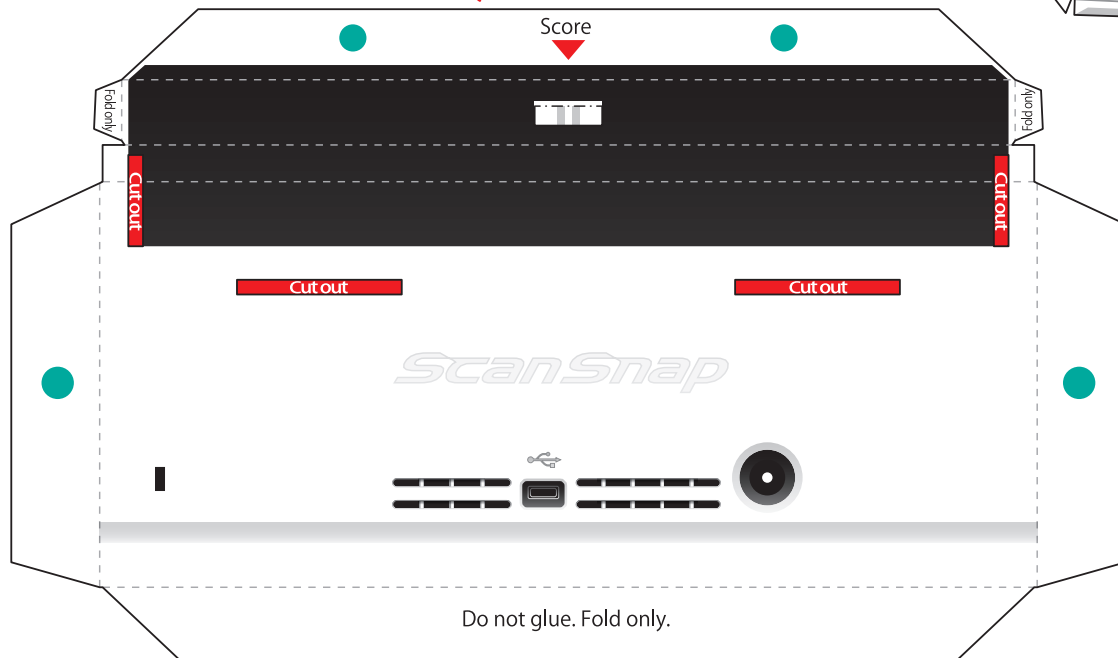

Paper type: Please print the parts on paper of around 0.2mm in thickness. (Thin paper such as copy paper is not recommended)

Print scale: When printing from a PDF viewer, please be sure to set the scale to 100%, as the viewer may automatically reduce the size of the printout.

Required Tools

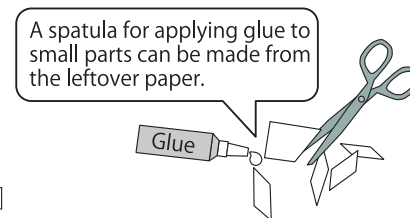

- **Scissors:** Useful for cutting intricate parts.
- **Utility knife and cutting mat:** Please make sure to use a cutting mat to protect your table.
- **Glue**
- **Ruler and a pointed tool (such as a scoring tool):**
Used for scoring paper. A dried-out ballpoint pen works perfectly as an alternative.

Take care not to injure yourself!

A dried-out ballpoint pen

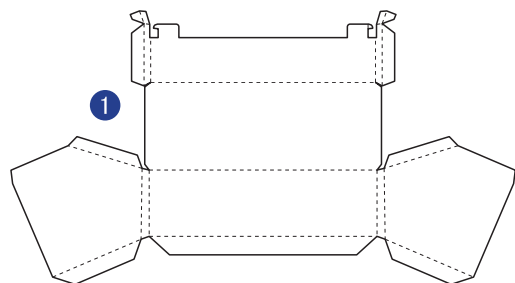

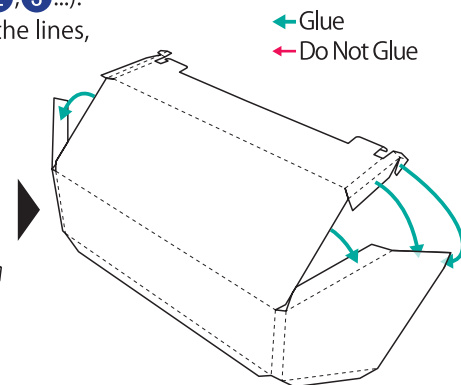

A spatula for applying glue to small parts can be made from the leftover paper.
