levels of document
encryption.

Fieri™ controller
ensures the highest
productivity colour
print output.

The combination of outstanding colour quality, high speeds and high-capacity document processing makes the new TASKalfa 6053ci a very impressive multifunctional device. Supported by advanced technology, productivity is further enhanced with flexible paper-handling options and fast, economical and reliable printing. And when it comes to optimising workflows, this colour multifunctional, with its range of digital functions, unique HyPAS™ software platform and optional Fieri™ controller puts the power firmly in your hands. A standard data security function also allows peace of mind, knowing that all documents that are sent to and printed from or held on this device are automatically overwritten and encrypted.

In today's landscape, securing your printing environment is a competitive advantage for your organisation. The new TASKalfa 6053ci runs sophisticated security features to protect your business data from costly data breaches.
