

# YK-81CEU Braun Pulse oximeter 1

A key symptom of respiratory illness is diminished lung function, which may lead to lower blood oxygen levels. Braun Pulse oximeter 1 measures blood oxygen levels.

When the index finger is inserted into the fingertip photoelectric sensor, the display screen of the device will show **the measured value of %SpO<sub>2</sub>** and **pulse rate** as well as a vertical bar graph showing the **pulse amplitude**.

**Simple finger clip design**

**Push button  
Rotating display**

**Back-lit  
OLED display**

**Also great for  
athletes**
