

BRAUN Air Purifier

Braun Scan & Clean Air Purifier

BFD104BE

When you simply want cleaner air effortlessly in your home, Braun is your solution

Cleaner air by design™

Air quality sensor

- With colour-coded indicator monitors particle levels in the air and visually displays the air quality in real time

Automatic Smart Mode

- Activates filtration and its intensity based on continuous sensor readings

Triple filtration system

- Cleans the air of up to 99.9% of PM2.5 and ultrafine particles as small as 0.3 micron or larger (such as , pollen, dust, smoke, and pet dander) from the air that passes through the filters.

Permanent & washable mesh pre-filter

- Captures larger particles, dust and pet dander.

Washable patented ECO filter

- Enables economic operation as no need to re-purchase the filter

The heavy duty carbon filter (BRFV1E)

- Reduces household and pet odours and VOCs. Replace every 6 months

4 air cleaning levels from low to high

Filter indicator lights

- Alert when it's time to replace or clean filters

Auto-Off timer option

- 1, 2, 4, or 8 hours

CADR 315m3/h

- For rooms up to 129m2
