

INFORMATION SHEET

SPECIAL PENCILS

CARPENTER PENCIL STONEMASON PENCIL
OMNICHROM GLASOCHROM OMNIGRAPH

The EC safety data sheet is required only for dangerous substances and preparations subject to the relating EC directives and will be provided to you, where applicable.
For STAEDTLER special pencils safety data sheets are not necessary, because these products are not regarded as dangerous substances or preparations as of the relating EC directives.

STAEDTLER always considers the relevant national and international regulations regarding consumer protection during the selection of the raw materials and in their manufacture. In addition, and this is of major importance, we pursue developments in the chemical and technical fields to offer our customers safe products that point the way ahead.
