**ZHEJIANG SHULIN INFORMATION MATERIALS CO., LTD.
NO.29, SOUTH ROAD, CHANGAN TOWN, HAINING, CHINA.**

The following sample was submitted and identified by the client as WATER BASED GEL INK V-50000 (1 formulation and 4 additional colors).

Net Weight/Volume : 100.0 g/pc/color
Style/Item No. : Unspecified
Buyer : Unspecified
Manufacturer : Unspecified
Region of Origin : China
Region of Destination : USA
Sample Receiving Date : Jul 20, 2017
Test Period : Jul 26 ~ Aug 04, 2017
Reference No. : NBIN1707007072PC

Test Requested

For compliance with Labeling of Hazardous Art Materials Act (LHAMA) and the criteria outlined in ASTM D-4236.

Test Results

Please refer to the following page(s).

Conclusion

The said product conforms to the health requirements of ASTM-D4236 and requires no additional labeling in accordance with the CPSC's Regulations as amended by the LHAMA. This product must bear the following statement of "**Conforms to ASTM D-4236**".

Test Report

No. SHAMLP1715698501

Date: August 4, 2017

Page 2 of 4

Test Results:

The formulation of WATER BASED GEL INK V-50000 – Ink in 5 Assorted Colors(V-001 Black, Z-5925A Blue, Z-59350 Red, V-002 Blue and Z-505E Green) was reviewed according to the US Consumer Product Safety Commission's Regulation-16 CFR 1500.135 and the criteria outlined in ASTM D-4236.

In this review, the available data including the relevant data from the National Toxicology Program (**NTP**), International Agencies for Research on Cancer (**IARC**) and other sources in the National Library of Medicine Data Bank were considered to assess the need for chronic health hazard warning. The carcinogenicity, reproductive hazard, neurotoxicity, bioavailability and potential exposures were also considered and in the absence of specific data, a reasonable judgment was made to realistically assess the potential hazards of this component.

The review is based only on the submitted formula (*) including the CAS No. of each component and their concentration (% by weight). All the ingredients in this product are assumed to contain no contaminants or residues at level that would cause chronic toxicity among users when used as intended or under circumstances involving reasonable foreseeable misuse. If there is any alteration to this formula in this product, it will void this certification.

The formulation is intended to be packaged by appropriate instruments for writing on paper by the population of 3 years old and above. None of ingredients at levels found in this product would be expected to cause chronic toxic effects in consumers during its normal and foreseeable use conditions according to the searches of the above mentioned data sources and other information sources. Based on all available information provided up to date and if the assumption mentioned above is correct, it's my opinion that the product would not be expected to pose any significant chronic adverse health effects to the consumer when it is used as intended or under reasonable foreseeable conditions of misuse. Consequently, the product conforms to health requirement of ASTM D-4236 and requires no additional labeling in accordance with the CPSC's Regulations as amended by the LHAMA.

Labeling Practice:

CONFORMS TO ASTM D-4236

The validity of this review depends on the validity of disclosure by both the manufacturer of the components and that of the finished products. In addition, best professional capabilities are used in performing this review
