Multifunction Printer
Brilliant color. Every day.
Every document.

Make everyday business more colorful (and color truly affordable)

In the business world, nothing's really black and white. That's why you need color—to clarify, to emphasize, to stand out. And now, for the first time, color is priced right for any office. Bring your business to life with the Xerox ColorQube™ 9200 series multifunction printer, and get dramatically lower color printing costs for your workgroup. Print color. Every day.

Only Xerox can deliver on the promise of affordable color for every document, every day.

Xerox has the patented solid ink technology to make it practical. Built from the start for high-performance office color printing, our solid ink technology has an 18-year track record of reliability. Solid ink is simple to use, produces stunning color print quality, is good for the environment, and enables low cost color for small businesses and global corporations alike. Give your business the full advantage of solid ink, and get every Xerox innovation and advanced feature in one brilliant machine. Obviously, it's time to rethink your ink.

Great color for a great price

Precision color

Colors are vibrant, glossy and perfect for all office documents when the “right” colors are a must.

- **Great looking documents regardless of media.** Count on dense, saturated color even on inexpensive or environmentally preferred papers such as recycled or Xerox High-Yield Business Paper.
- **Smooth color blends and gradients,** thanks to a wide color range.
- **Exceptionally consistent color** print after print; especially important on longer print runs.
- **Built-in PANTONE®** spot-color correction tables ensure quick and easy PANTONE color matching. Get true representations of important business colors – like your logo.

Powerful color

The ColorQube 9200 series features a full range of color-enhancing technologies, so the results meet your expectations.

- **Xerox Color Correction** technology lets you enhance printed output, adjust color quality and save print settings to use again.
- **Adobe® PostScript® 3™, PCL® 5c and PCL® 6 support** ensures even complex graphics print accurately.
- **Choose the perfect combination of image quality and print speed** with four different output settings: Photo, Enhanced, Standard and Fast Color.

Breakthrough color price

Add a little color for a lot less. With the ColorQube 9200 series, you can make every document stand out. Without going into the red.

- **Low color page prices** makes the ColorQube 9200 series more cost-effective than comparable laser multifunction printers.
- **Unique price plans** are based on the actual color used on the page. No more paying expensive full-color page prices for small amounts of color.
- **Pages with useful amounts of color** are billed at the same rate as black-and-white pages. The more color pages you print, the more you save. On most color pages, your price will drop significantly.

Ease of use that enhances your business every day

Speed up, simplify and work smarter

Unique solid ink features maximize convenience and efficiency.

- **Xerox solid ink sticks are cartridge-free** and engineered for maximum ease of use. Each solid ink color is uniquely shaped for easy drop-in loading, and ink can be topped off at any time — no downtime to reload.
- **Increase print productivity** with speeds up to 85 ppm in Fast Color mode for internal use or short life documents.
- **Copy speeds up to 50 ppm** keep up with your busy everyday workload.
- **Long-term print capacities.** The ColorQube 9200 series holds enough solid ink to print over 55,500 pages before replenishing.
- **Embedded help videos** offer quick troubleshooting assistance right at the front panel, while the illuminated paper path makes occasional access less intimidating.
- **Solid ink has just one customer-replaceable unit**, a long-life Cleaning Unit. You'll never have to worry about fusers or multiple imaging units typically found in laser devices.

A better way to manage your documents

Organize, archive and share documents with ease, thanks to advanced scanning and faxing.

- **Optimized file compression** ensures scanned files are the smallest possible size for fast delivery and reduced network load.
- **Scan to Email** lets you route files to email recipients directly from the front panel.
- **Network scanning** uses convenient templates to send scans to predefined locations such as your personal network folder or document management system.
- **Scan to Mailbox** lets you send electronic files to the device's hard drive for easy retrieval.
- **Create text-searchable PDFs** from scanned documents for quick information retrieval.
- **Full compatibility with other Xerox office solutions** including SMARTsend™ software for advanced document routing.
- **Powerful fax capabilities.** Send faxes from the desktop, over the Internet or via an existing fax server.

Each solid ink stick is uniquely shaped to fit the correct slot, making ink loading fast, easy and clean.

Tailored to fit your document needs

Xerox Extensible Interface Platform™ enables personalized and simplified workflows that meet your unique business requirements. Using standard web development tools, in-house developers can build tailored server-based applications that users can access right from the touch screen. Extensible Interface Platform applications can leverage your existing databases and systems, providing a greater return on investment. Software solutions from Equitrac, iXware, Nuance, X-Solutions and other third parties provide advanced print management, cost recovery, faxing and scanning capabilities. To learn more, visit www.xerox.com/eipinfo.

Goodbye: toner cartridges and wasteful packaging Hello: greener world

While enhancing your company's image with color, let the ColorQube 9200 series put you on the path to a greener workplace.

- **Cartridge-free solid ink sticks** avoid the excessive packaging of toner cartridges. That means fewer resources are used and less energy is invested in manufacturing and transportation. The results? 90 percent less waste in your office and a smaller carbon footprint across the product life cycle*.
- **Think globally. Act locally.** Solid ink packaging is made from post-consumer waste — 100 percent of which can be recycled locally.
- **There's only one customer replaceable component**, a long-life Cleaning Unit with an average yield of 200,000 prints, which can be recycled through the Xerox Green World Alliance program (visit www.xerox.com/gwa for more information).
- **ENERGY STAR® qualified.** Has earned the 2009 ENERGY STAR® for reduced power consumption.
- **Print responsibly** with brilliant color on recycled or Xerox High Yield Business papers plus standard two-sided printing and copying. Or, go paperless with powerful scanning features to manage documents electronically.
- **Our Intelligent Ready technology** minimizes energy use without making you wait for a print. It learns your workgroup's usage patterns and moves to low power mode when you're less likely to need it.
- **No-mess solid ink is non-toxic**, safe for anyone to handle, and won't stain clothes, skin or furniture.
- **Xerox has a longstanding focus on green innovation.** Xerox High Yield Business Paper uses 50% fewer trees than conventional paper, and we've diverted over 2 billion pounds of waste from landfills through our Product Take-Back and Recycling Program (visit www.xerox.com/environment to learn more).

Solid ink waste vs. laser waste

Cartridge-free solid ink is a true consumable; no empty toner cartridges to dispose or recycle. The ColorQube™ 9200 series produces 90 percent less packaging waste than a comparable laser device.

Solid Ink
88 lbs

Laser
815 lbs

Total waste produced from printing
22,000 pages per month for 4 years.

* Based on a Xerox-conducted and peer-reviewed lifecycle assessment comparing a solid ink device to a comparable color laser device.

Intuitive, intelligent, advanced Xerox features

Designed with IT in mind

IT departments will love the ColorQube 9200 series for its innovative features and software that reduce downtime and IT support costs.

- **Reduce calls to the IT desk.** Features such as simple ink loading, a long-life CRU, embedded help videos and an illuminated paper path minimize interventions.
- **Manage every device.** Using Xerox CentreWare® Web, IT administrators can easily install, configure, manage, monitor and report on printers and multifunction devices across the network, regardless of manufacturer.
- **Access the ColorQube 9200 series remotely.** Xerox CentreWare® Internet Services, a web server built into the device, simplifies installation, cloning and network administration, and provides quick access to device and job status, accounting information and online support.
- **Simplify print driver management.** The Xerox Global Print Driver™ and Mobile Express Driver™ eliminate the need for IT and users who work in multiple locations to download individual print drivers for each product*. These drivers are truly universal and let users print to most devices—even those made by other manufacturers.
- **Easy, accurate billing.** Smart eSolutions MeterAssistant™ collects and automatically submits meter reads to save employees' time.
- **Multitasking operation** lets multiple users perform different tasks simultaneously—scan, copy, print, fax and manage the queue – to maximize business efficiency.

Safeguard your information with advanced security features

Now you can minimize security risks without adding extra time and work.

- **State-of-the-art security standards.** The ColorQube 9200 series conforms to the latest industry standards for network security, supporting IPSec to encrypt document content, SNMPv3 to securely transfer information to users, and 802.1x to securely authenticate network devices before allowing document access. Plus, the device has been submitted for full system Common Criteria (ISO 15408) certification.
- **IPv6**, the next-generation Internet addressing protocol, improves security, routing and auto-configuration on your network.
- **Secure Access Unified ID System**, an optional feature, enables users to log into the device with a swipe of their existing security badge.
- **Image Overwrite** ensures that scanned documents are completely erased from your device, preventing unauthorized printing of sensitive material.

- 1 Two 550-sheet universal-size trays hold paper sizes up to 11 x 17 in.
- 2 Tray 3 holds a total of 2,100 sheets of letter-size paper.
- 3 100-sheet Bypass Tray handles media sizes up to 12 x 18 in. and weights up to 80 lb. cover.
- 4 For high-volume workgroups, you can add a 4,000-sheet letter-size High Capacity Feeder, and a 2,000-sheet Short-Edge Kit in either letter/legal size or oversize for 11 x 17 in. media.
- 5 Embedded help videos offer users clear directions for quick troubleshooting assistance right at the touch screen.

6

Three optional finishers. Choose basic features such as staple and hole punch, or advanced capabilities to produce paginated, saddle-stitched and folded booklets and Z and C-folded brochures.
